

# PTOLEMY'S SCIENCE OF THE STARS IN THE MIDDLE AGES

THE WARBURG INSTITUTE 5-7 NOVEMBER 2015

Organisers: David Juste, Benno van Dalen (Bayerische Akademie der Wissenschaften, Munich),  
Dag Nikolaus Hasse (Würzburg), and Charles Burnett (Warburg Institute)

Speakers: Jean-Patrice Boudet (Orleans), Josep Casulleras (Barcelona), Bojidar Dimitrov (BAdW, Munich), Dirk Grupe (BAdW, Munich), Alexander Jones (New York), David Juste (BAdW, Munich), Richard Kremer (Dartmouth College), Tzvi Langermann (Bar-Ilan), Maria Mavroudi (California, Berkeley), María José Parra Pérez (BAdW, Munich), Darrel Rutkin (Sydney), George Saliba (Columbia), Michael Shank (Wisconsin, Madison), Nathan Sidoli (Waseda, Tokyo), Carlos Steel (Leuven), Johannes Thomann (Zurich), Flora Vafea (Cairo) and Henry Zepeda (BAdW, Munich)

This first international conference of the project *Ptolemaeus Arabus et Latinus* (<http://ptolemaeus.badw.de>) will explore the Arabic and Latin traditions of Ptolemy's astronomical and astrological works from late Antiquity to the seventeenth century.

Standard rate: £35 for three days or £15 for one day.

Concessions: £15 (for full-time students/retired) for three days or £7 for one day.
